

Covid-19 Management Update – 4th May 2020

A&D Environmental Services have continually monitored the situation regarding Covid-19 management to protect the workforce and minimise the risk of spread of the infection. We have maintained an 'emergency response' capability to cover NHS and Local Authority clients as required.

As of Monday 4th May 2020, we have now introduced a phased return of the workforce following Construction Leadership Council – Site Operation Procedures and a Risk Assessment generated on our behalf by an independent Health & Safety Consultancy.

We will continue to monitor UK Government guidance and adapt the business operations accordingly with the objective of a safe return to a more normal work situation.

We are happy to receive enquiries and provide quotations for works and offer potential start dates, please contact a member of the Contracts Manager team.

We will update this notification typically on a week by week basis for the foreseeable future.
